## **Introducing Share International Resources**

In spite of the crises dominating headlines around the world, powerful forces for good are working behind the scenes to bring about a complete transformation of our civilization. As early as the 1800s, Theosophical writings described a great teacher who would inaugurate the incoming Aquarian age, introduce its new teachings, and inspire major changes in our way of life. That World Teacher – Maitreya by name – is here now, in our everyday world, awaiting humanity's call to begin his open, public work. **To learn more, we recommend the following resources:**
